

## AMERICA – FILLER OF OPEN CRATES WITH MULTIFORMAT PUNNETS

ALLOWING QUICK FORMAT CHANGES  
EXTREMELY FAST

EASY TO USE  
WIDELY CUSTOMISABLE

- Automatic machine for filling open crates with punnets.
- **60% faster** with respect to traditional machines, thus, ideal for high-productivity flowpack and topseal lines.
- It works both **crates** in plastic (IFCO, CPR, EPS, CHEP, etc.) and in cardboard, provided that their **upper part is completely open**.
- It works with **any type of punnet**, both in plastic and cardboard.
- **Easily programmable** with different recipes, thus, it can manage an amount of punnets variable according to the format, on more layers too.
- Suitable for **working delicate products**.
- Ideal for: strawberries, small fruits, peaches, nectarines, kiwifruits, apricots, plums, tomatoes, avocados, cherries, pears, grapes, etc. (all products usually contained in punnets).

### TECHNICAL FEATURES

- 4.3" colour touch-screen control panel
- New intuitive R-Touch graphic interface with production statistics
- Workable crates: 600x400 mm, height up to 190 mm, open type only
- Workable packages: clamshell; in flowpack; with lid; netted; open; cartons with wings
- Punnet formats: from 4 to 15 punnets per layer; 1 or 2 layers
- Approximate production: 60-75 punnets/min.
