

VEGA HORIZONTAL CLIP NETTING MACHINE

CREATING DIFFERENT TYPES OF PACKAGES
FAST AND RELIABLE

REALLY GENTLE
VERSATILE AND CUSTOMISABLE

- Vega is an extremely versatile automatic netting machine, suitable for working a wide range of products (vegetables, citruses and fruit); it can package loose items up to 2 kg as well as **punnets, trays and small cartons**, by using either **extruded or woven net**.
- Vega can apply to the package a wineglass label and a **tape functioning as handle**.
- Ideal for: melons, courgettes, peppers, cucumbers, aubergines, carrots and other loose vegetables, as well as meat (chicken and turkey) and cured meats (salami, sausages, wieners) and apples, avocados, citruses, pears, onions, garlic, potatoes, mushrooms, chestnuts and all products usually contained in punnets, trays or small crates.

TECHNICAL FEATURES

- Mechanical and pneumatic drive
- Package format change with no mechanical variations (up to 300×200 h110 cartons)
- Moulded net tube equivalent to Ø260 L=1200 mm
- Great net-tube capacity (more than 300 m of woven net)
- Net traction on the tube by means of counter-rotating-rubber-roller system
- Toshiba high-resolution wineglass-label printer, with alarm management and label data storage
- Possibility of working wineglass labels of different lengths
- Application of tape (functioning as handle) wide up to 27 mm
- Alarm management by means of a practical colour touch-screen panel
- Instant production indicator (packages/min.)
- Extremely gentle product-transport system functioning by means of conveyor belts
- Maximum gentleness in treating the product
