

LION THERMOSEALING PUNNET NETTING MACHINE

**CREATING INNOVATIVE MONOMATERIAL
PACKAGINGS**
**EXTREMELY VERSATILE AND REALLY EASY TO
USE**

**ENSURING HIGH PRODUCTION CONTINUITY
GUARANTEEING MINIMUM MATERIAL WASTE**

- Lion is the only automatic netting machine capable of packaging **NGP (patented) 100%-recyclable punnets, compostable or in PE.**
- It takes advantage of a high-tech concentration and, yet, it is extremely easy to use thanks to the **intuitive graphic interface** of the wide colour touch-screen panel. As a result, it can be used by non-specialised personnel too.
- Lion is available in three configurations and allows to realise packagings of different types for what concerns the printing method and position of the variable data.
- Ideal for: peaches, nectarines, kiwifruits, apricots, plums, tomatoes, cherries, citruses, avocados, pears, grapes, vegetables, etc. (all products usually contained in punnets).

TECHNICAL FEATURES

- Extreme ease of use
- High production continuity
- Machine stops reduced to a minimum
- Maximum gentleness in treating the product
- Great material autonomy (bands and net)
- Particularly limited material refill time
- Almost-nil management of spare parts subject to wear and tear
- Low maintenance
